THE SOUTHERN STATES.

Destitution at the South-Letter from Major-General Thomas.

following letter from Major-General George H. Thomas to a prominent citizen of Chicago is published in the journals of that

LOUISVILLE, Ky., March 29, 1867.—Mr. Carter H. Harrison, Chicago, Illinois—Dear Sir:—I reserved your favor or the 17th instant, this morning, for which I am much obliged, as it will enable me to point out a locality in Georgia and Alabama where the people on both sides of the question at present dividing the country are in extreme want of provisions, and many who have means to do so will be compelled to quit their homes, unless they can get subsistence enough to enable them to make crops this year. The people of Carroll, Haralson, Polk, Paulding, Campbell, Corveta, and Heard, Georgia, and Randolph, Calboan and Cherokee, Alabama, are represented to me as not having provisions to last them until May next; and great numbers who have the means to move will be compelled to do so, unless they can procare provisions from abroad. All classes of the citizens are alike destitute, the rich as well as the poor, and both must starve if they remain in the country, unless provisions are sent to them. The rich are perfectly willing to pur-chase if any one will send them provisions, and wait for them to gather in their crops before

demanding payment. By aiding these people, I know you will be doing good service in relieving distress which is common throughout the South, and will also be giving encouragement to people who will appre-ciate the relief afforded them in their time of need. I am, sir, very respectfully, your obe-dient servant, George H. Thomas.

P. S.—Corn and bacon are articles most essential, as the people absolutely need something to enable them to remain at home and cultivate the crops. Anything sent to Mr. W. H. Mc-Danlel, Carroll county, Ga., via Newman, Ga., on the Atlanta and West Power Railroad, will reach him safely. He is the authorized arent of the citizens of Carroll county. I can send you the names of agents for the other counties, should you desire them. It will be necessary to write to those counties, however, to get the The Direct Tax in the Late Insurrectionary Districts.

The following table exhibits the amount of direct tax collected in the late insurrectionary States, together with the apportionment to each State under the act of June 7, 1862. The statement of the amount collected also includes the sum realized from the sales of property for the non-payment of tax:-

Virginia	portionment, 8937,550-02 576,194-66 363,570-66 584,367-33 413,084-66 385,888-66 660,498-00	Collected, \$468,374.51 402,950.65 222.690.97 82,621.54 60,947.05 310,863.78 402,843.41
Total	83,930,151-59	\$1,060,301-05

The amounts collected in Florida, Texas, and Arkan as have not been finally reported to the Commissioner of Internal Revenue; but, from reports already rendered, it appears that a large portion of the tax one from those States is still unpaid. No collections whatever have been made in Alabama. No collections have been made since the 3d of August, 1866, at which date the Secretary of the Treasury ordered a suspension until January 1, 1868, under special authority from Congress.

Th "Bone-Yard."

One of the pleasantest features of life in East Tennessee during 1864 is thus portrayed:-"There is a place on Indian Creek, near the line between Carter and Sullivan counties, which, in the polite phraseology of the Recels, was denominated 'the bone-yard.' This was the place where the Recels carried many of their prisoners to murder them. It is a louely spot, surrounded by lotty hills, on the side of a ridge, where a small flat place had been formed by the fall of a large tree. Here they would conduct their prisoners and shoot them down, and would then go to the first house and tell the Union people 'if they would take a wagon and go to the bone yard they would find another dead dog ready to be hauled off.' The Union citizens would often see them conducting prisoner to this spot, without having the least power to render them any assistance, hallooing and uttering rude jokes, as if they had been going to one of their drunken frolics. Their victim, with downcast head, and with his hands tied behind him, would walk dejectedly on before them, while his wife, and probably a few other female friends, would follow on behind, exhibiting the greatest distress !maginable."

Miscellaneous Items.

-The Louisiana papers calls attention to the fact that one hundred and fifty steamers lie rotting in the Red river, and declare that unless New Orleans builds a road to the head of Red river navigation, she must "go under" commercially.

-Arkansas offers a premium of \$40,000 a mile for the encouragement of railroad building in that State. Hence the transfer of the Missis-sippi terminus of the El Paso and Paciac road from St. Louis to Memphis -Several of the singular sect called the

"Dunkers" have recently left Southwestern Virginia and gone to Indiana. They were all devoted loyalists during the war.

-The oldest paper in the State of Mississippi is said to be the Brandon Republican. Let conform its principles to its name, and it will have a new lease of life. -An Arkansas correspondent of the Spring-

field (Mass.) Republican says he has travelled unarmed through several counties of that State with perfect saiety. -An exchange says pointedly:-"It seems that

the roll of Robert Toombs' slaves will be called at a Georgia ballot-box instead of at Bunker Hill."

-A great Masonic "revival" is in progress in Charlestown, Virginia, and in that neighborhood. Several new admissions have been made -The Virginia farmers complain of the longcontinued wet weather in that state. The Union soldiers used to do the same thing.

-A Mississippi paper says that emigration passes through that State to Texas mainly on account of the lack of breadstuffs, -The Augusta (Ga.) Chronicle and Sentinel

estimates the number of the distranchised classes in that State at 8772. -Seventy-five new buildings, twenty of them

sawmills, have been built in Pensacola, Florida, since the war. -The Mobile Tribune calls the Reconstruction and Supplemental acts "The Hammer and the

Spike. -The New Orleans papers report several alarming crevasses below Natchez. -The Dismal Swamp Canal is suffering from the recent floods,

A Petrified Body Found-Arrow-Heads, Knives, and Other Indian Relics Exhumed.

One of the most remarkable discoveries of Indian remains that has been made for many years occurred on Saturday afternoon in this The workmen engaged in excavating for the new block, at the corner of Superior and Eric streets, came upon the petrified body of a full grown man, in a remarkable state of preservation. A large number of knives, arrow-heads, and trinkets of various kinds were also found, proving beyond a doubt that all were relics of the aboriginal period. The man was about six feet in height, and was andoubtedly a warrior of one of the tribes which inhabited this section before the conquering white man came. The other articles are similar to these usually found in the mounds or burnal grounds of the Indians. One of the arms was accidentally broken by a blow from a mattock, but otherwise the body is nearly perfect. The whole contents of the grave were removed to the rooms of the Library Association, where they may be seen to-day. No greater or more interesting curiosity has been exhibited in our city for many a day.—Cleveland Leader, 1st. DRY GOODS.

WHAT, IS DYSPERSIA? DYSPEPSIA HAS THE FOLLOWING SYMPTOMS:

1st, A constant pain or uncasiness in the pit of the Stomoch—Which is caused by a permanent contraction of the stomach upon the undigested food. It generally begins immediately or a short time after eating; is often very severe and obstinate.

2d. Flatulence and Acidity.—These symptoms arise from the indigestion of food, which ferments instead of digesting.

3d. Costiveness and Loss of Appetite.—These symptoms are the effects of the unnatural condition of food in the stomach, and the want of a pure bile and gastric juice. The stomach is often painfully distended by wind; the appetite is constituted with the appetite is

ometimes voracious. 4th. Gloom and Depression of Spirits.—This state units many for the enjoyment of life, and is caused by the impure blood furnished by imperfect digestion. In this stage of the disease many persons commit suicide. There is a constant foreboding of evil, and an indifference and positive inability to perform the offices of life.

5th. Diarrhwa.—After being at first costive, the sufferer is afflicted with diarrhea, which is owing to a diseased condition of the bowels, produced by the undigested food, which is evacuated in the same condition as when enten, and of course gives no strength to the system.

system. eth. Pains in all Parts of the System—Arise from the action of impure blood upon the nerves. They are felt chiefly in the head, sides, and breast, and in the extremities. In many cases there is an uneasiness in the throat, with a sense of choking or suffocation: the month is

often clammy, with a bad taste and a furred 7th. Consumptive Symptoms and Palpitation of the Heart.—Many persons pronounced as having these diseases have, in fact, nothing but Dys-pepsia, the lung and heart disease being only

symptoms, 8th. Cough,—This is a very frequent symptom of Dyspepsia, and leads very often into confirmed consumption.

9th, Want of Sleep.—A very distressing symptom, resulting from mental derangements. 10th, Symptoms of External Relation.—The patient is affected painfully by cold and heat, which is owing to unnatural dryness of skin, and the skin is often affected by eruptions and

tetters. The gloomy dyspeptic avoids society as 11th. Vomiting.—A frequent and distressing symptom. It relieves the pain, but emaciates and wears out the patient.

12th. Dizziness, dimness of vision, headache, and staggering in walking.—These are very alarming symptoms, which are speedily removed by our medicines; but if neglected are quickly followed by numbness and sudden death. 23th. It is impossible for us to give all the symptoms of Dyspepsia in so small a space, but the above are considered sufficient, if we add that the patient loses his memory and regard to surraunding objects, and frequently becomes morose and sour in disposition. We should say, however, that pains in the joints and stiffness of the limbs, which go by the name of rheumathm and neuralism are produced by Dyspensia. tism and neuralgia, are produced by Dyspepsia.
Also, a hardness of the muscles of the abdomen,
which becomes contracted and hard; and in
some cases the belty sinks, instead of being

gently prominent. N. B.-Perhaps we have not said enough of that strongest symptom of Dyspepsia, melancholy. We have examined hundreds of cases of Dyspepsia, who were so much affected in their minds that they constantly forbode loss of their reason, which unfitted them for business of any kind, and many of them have been patients of

the Insane Asylum, who are now permanently cured by our medicine. Hundreds of thousands of dollars are spent yearly, and hundreds of thousands of the best men and women of America linger in pain and die, and fill a premature grave, with that awful disease, Dyspepsia. They try this physician and that physician, but alas! alas! no relief, no cure; and the next we hear of them they have

gone "to that bourne from whence no traveller returns." Out of the thousands of cases of Dyspepsia that have used Dr. Wishart's Great American Dyspensia Pills and Pine Tree Tar Cordial, not one of them has failed of a perfect cure. We warrant a perfect cure in every case, no watter if it be twenty years' standing. Sold by all druggists everywhere, and at Dr. Wishart's Office, No. 10 N. Second street, Philadelphia, Pa. A GREAT REMEDY FOR THE CURE OF THROAT AND LUNG DISEASES.

PINE TREE TAR CORDIAL. It is the vital principle of the Pine Tree obtained by a peculiar process in the distillation

It dissolves the mucus or phlegm which stops the air passages of the lungs. Its healing principle acts upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving pain and subduing

inflammation. It is the result of years of study and experiment, and it is offered to the afflicted with the positive assurance of its power to cure, if the patient has not too long delayed a resort to the means of cure.

CAUTION.

Whereas, Base and designing men, regardless of the lives of the sick, and with a view solely to their own pockets, are making and vending a spurious article worse than useless-representing it as my Pine Tree Cordial, copying, in some cases, my labels and bottles, with slight variation to protect them from the law, the subscriber has been induced as a protection to the public, to punish a fac-simile of his bottles as last patented by the United States Government; and hereby cautions all persons who value their health and life against purchasing any of the many preparations offered for sale

The genuine Pine Tree Tar Cordial is made by a process and of ingredients known only to myself, which secret has never been divulged; and any and all persons claiming to make my Pine Tree Tar Cordial are but ville impostors.
